OD HOTELS. What makes us different.

Unbeatable locations, both due to the destination itself and on a local level.

We respect the past and history of our destinations, and even of the neighbouring buildings. We appreciate the character that these give.

Meticulous architecture and interior design with timeless signature designer furniture, lots of space and lots of light.

We care for our environment and the people who live in it. Therefore, in addition to being environmentally aware, our staff are friendly, approachable and very professional.

OD HOTELS. What makes us different.

Our hotels are: diverse, lively and open.
We love art, music and culture in general.

Flexible when it comes to requests, ideas and proposals,
whether individual or on a group level.

We like combinations: work with leisure, local with global,
traditional with modern, etc.

Hotels full of life: with their own private events all year round,
which are free and open to locals and visitors, art exhibitions, concerts,
press conferences, product presentations, charity events, etc.
